Description

The cylinder head designed to prolong gearbox shell life and provide the perfect seal to achieve best results. The shock-absorbing bumper noticeably increases gearbox life and limits the wear of the piston head. Thanks to high-quality aircraft-grade aluminum CNC machining, the Protector Cylinder Head guarantees a precise fit and high tolerances between the nozzle and its guide, eliminating the mid-cap syndrome.

Features:

- Designed especially for standard and high-performance builds
- Two shock absorbing bumpers of different hardness, prolonging gearbox shell life
- Ultra-high quality of aircraft-grade aluminum CNC machining
- Precise fitting with the nozzle eliminating the mid-cap syndrome
- High tolerances between the nozzle and its guide
- No limits in spring power
- No AEG modification required
- Dedicated especially to pros and skilled users

Compatibility:

- All standard AEG cylinders
- All standard AEG piston heads
- All standard O-rings

Kit contents:

- PROTECTOR Cylinder Head – Aluminum
- 2 shock absorbing bumpers of varied hardness
- 2 o-rings
- QR Code containing QuickStart Guide

The price applies to 1 PROTECTOR Cylinder Head.
